2. Know when to suspect invasive fungal infection from clinical parameters and radiological findings
3. Order appropriate laboratory tests and interpret laboratory reports
4. Manage invasive fungal infections
5. Know when and when not to use antifungals

---

### **Course content:**

1. Introduction of Medical mycology with classification of fungi
2. Risk factors for Invasive fungal infections (Describe basic immunology & defence mechanism against fungal infections)
3. Clinical characteristics of IFIs
4. Yeast Infection: epidemiology and characteristics
5. Mycelial Infections: epidemiology and characteristics
6. Dimorphic fungi: epidemiology and clinical characteristics
7. Rare fungal infections in clinical practice
8. Diagnosis and definition of invasive fungal infections: Conventional methods and clinical rules
9. Biomarker tests for diagnosis
10. Antifungal Agents: PK, mechanism of action and toxicity
11. Drug interactions and TDM
12. Assessment of response to therapy

## How to apply for this course?

Interested candidate should fill in the application form and submit it to FISF secretariat. A panel of FISF will make final selection from these applicants.

### FISF secretariat for Ahmedabad Course

Dr Atul K Patel, 3<sup>rd</sup> Floor, VEDANTA Institute of Medical Sciences, Navarangpura.  
Ahmedabad. 380009. Email: [atulpatel65@gmail.com](mailto:atulpatel65@gmail.com)

### Application Form

Name: \_\_\_\_\_

Birthdate: \_\_\_\_\_

Qualification/ Current study with Specialty: \_\_\_\_\_

Do you have training in the area of fungal infections?      YES/NO

Name of the department: \_\_\_\_\_

College and Address: \_\_\_\_\_

\_\_\_\_\_

Mobile Number: \_\_\_\_\_

Email: \_\_\_\_\_

Why should you be selected for this course? Write in box in 100 words

Selected candidates will be contacted by email. Details of Course timing and Final venue address will be informed by email

Selected candidate's attendance will be supported by FISF
